

New Production Facility in Wuxi, China

Update: Chinese PowerSeal Production on Schedule

On May 8, 2014, Trombetta produced its first PowerSeal DC Contactor at the new manufacturing facility in Wuxi, China. In order to meet high demand with our PowerSeal line and support overall growth, production of our DC Contactor families has begun as of May 2014.

Quality Assurance is our top priority which is why we are using the same assembly line equipment and same proven processes as our production facility in Milwaukee, WI. We are excited about our rapid growth and look forward to supplying our customers with high quality DC Power Solutions on an international scale.
